Profile

Hello, my name is Mohamad Osama, and I'm 23 years old. I graduated from Al-Alsun Ain Shams University with a degree in Deutsche department. Currently, I work as a freelancer on Upwork and Mostaq, where I've had the opportunity to work on various front-end web development projects.

To improve my skills, I've taken several courses in front-end web development from reputable institutions such as NTI, Udacity, and Udemy. These courses have helped me perfect my skills in HTML, CSS, JavaScript, ReactJS, and other relevant tools. In addition, I've also completed courses in database management and the prestigious CS50 course.

I'm passionate about learning and staying up-to-date with the latest trends and technologies in my field. I believe that my diverse skill set and willingness to learn make me a valuable asset to any team I join.
